În fiecare zi pentru mai bine!

Produsele Sterk Plast îndeplinesc standardele europene de calitate și siguranță. În calitate de companie inovatoare, am acordat o mare atenție eficienței și protecției mediului, așa că am înlocuit mașinile vechi cu altele noi, cu tehnologie de ultimă oră, având ca scop reducerea consumului de resurse și a impactului asupra mediului.

Scopul nostru este de a conștientiza efectul consumului de resurse asupra mediului și de a-l minimiza prin automatizarea robotică a fluxului de producție. Credem că inovația începe cu designul produsului. Am reînnoit departamentul R&D pentru a crea produse utile, practice, durabile, cu aspect plăcut.

Everyday for the better!

Sterk Plast's products meet European quality and safety standards. As an innovative company, we have paid great attention to the efficiency and environmental protection, so we have replaced the old machines with new ones having state of the art technology, aiming to reduce resource consumption and environmental impact.

Our goal is to provide awareness to the effect of resource consumption on the environment and minimize it through robotic automation of production flow. We believe that innovation starts with product design. We renewed the R&D department in order to create useful, practical, durable, pleasant looking products.

Rend la vie plus simple!

Les produits de Sterk Plast répondent aux normes européennes de qualité et de sécurité. En tant qu'entreprise innovante, nous avons accordé une grande attention à l'efficacité et à la protection de l'environnement, nous avons donc remplacé les anciennes machines par de nouvelles dotées d'une technologie de pointe, visant à réduire la consommation de ressources et l'impact environnemental.

Notre objectif est de sensibiliser à l'effet de la consommation de ressources sur l'environnement et de le minimiser grâce à l'automatisation robotisée du flux de production. Nous croyons que l'innovation commence par la conception du produit.

Macht das Leben leichter!

Die Produkte von Sterk Plast erfüllen europäische Qualitäts- und Sicherheitsstandards. Als innovatives Unternehmen haben wir großen Wert auf Wirtschaftlichkeit und Umweltschutz gelegt, daher haben wir die alten Maschinen durch neue auf dem neuesten Stand der Technik ersetzt, mit dem Ziel, den Ressourcenverbrauch und die Umweltbelastung zu reduzieren.

Unser Ziel ist es, das Bewusstsein für die Auswirkungen des Ressourcenverbrauchs auf die Umwelt zu schärfen und ihn durch robotergestützte Automatisierung des Produktionsflusses zu minimieren. Wir glauben, dass Innovation mit dem Produktdesign beginnt.
